**About the Company**

ACC (formerly Associated Cement Companies Ltd) is one of the oldest cement company which is in operations from 1936. It was formed by merging 10 cement companies prominent among them are Tatas, Khataus, Killick Nixon and F E Dinshaw group. Many prominent of those times like JRD Tata, Walchand Hirachand, Homey Mody, Ambalal Sarabhai were among the board members. Tata's had been associated with the spectacular growth of the company from 1936 -2000 and thereafter diluted shares of ACC in stages to Gujarat Ambuja Cements which in turn was building association with Holcim , a global cement major from Switzerland. It is one of the top players that has pan Indian presence.

Current Projects

ACC is expanding its Cement Grinding Unit at Jharkhand. The project involves increasing the capacity of 1.0 MTPA to 2.5 MTPA cement grinding unit at Sindri Cement Works in Sindri in Dhanbad district of Jharkhand. The project involve increasing the capacity of Clinker 0.445 MTPA to 1.02 MTPA, Gypsum 0.05 MTPA to 0.14 MTPA, Slag 0.5 MTPA to 1.35 MTPA, Coal 12000 T to 32000 T and Rice husk 3000 T to 12000 T. The project is estimated to cost Rs.3000 million.

Latest Update :

Commissioning :

As of February 2016, the project is expected to go operational in mid 2016.

ACC Ltd is planning to set up a cement plant in Gollapalli in Mylavaram Mandal in Kadapa district of Andhra Pradesh. The project involves setting up of a 5.0 mtpa cement plant, cement grinding unit of 8.0 mtpa, captive power plant of 100 MW. The project cost is estimated at Rs. 42000 million. The coal requirement for the cement plant and power plant is 0.88 MTPA and 1.06 MTPA respectively which will be sourced from Singareni Coalfields (SCCL) in Andhra Pradesh. Lime stone requirement will be met from the captive mine

Latest Update :

Commissioning :

As of February 2016, the project is on hold though the company has purchased land for the project in 1995.

ACC Ltd is planning to set up a cement plant and a captive power plant in Gollapalli in Mylavaram Mandal in Kadapa district of Andhra Pradesh. The project involves setting up of a 5.0 mtpa cement plant, cement grinding unit of 8.0 mtpa, captive power plant of 100 MW. The project cost is estimated at Rs. 42000 million. The coal requirement for the cement plant and power plant is 0.88 MTPA and 1.06 MTPA respectively which will be sourced from Singareni Coalfields (SCCL) in Andhra Pradesh.

Latest Update :

Commissioning :

As of February 2016, the project is on hold though the company has purchased land for the project in 1995.

ACC Ltd is planning to set up a new clinker unit in Jamul Cement works with a capacity of 2.79 million tpa and allied grinding units in Durg district of Chhattisgarh. The expansion programme will be implemented over a period and will be completed by 2015. The new clinker unit will feed new grinding units coming up in Sindri in Jharkhand and Kharagpur unit in West Bengal. The project will entail an investment of Rs. 8000 million.

Latest Update :

Commissioning :

The company has conducted ground breaking ceremony in 2013 and has awarded the contract to KHD Group. The plant will be built using COMFLEX technology for grinding plant along with clinker grinding and pyro processing. McNally Engineering has been awarded the civil construction works and the contract is worth Rs. 7330 million.

As of February 2016, the project is under implementation and is likely to be completed by end of 2016.

ACC Cement is setting up a 2.7 million tpd cement plant in Kharagpur town of West Bengal. The project cost is estimated at Rs. 6000 million and is expected to go operational by mid 2016. With new capacities, ACC cement capacity is likely to reach 35 MT.
